Company Introduction

Weifang Yuyang Plastic Machinery Co.,Ltd. is one of the top blow molding machinemanufacturers in China. Machine application covers 1 to 6 layers various products, including 10L to 10,000L water tank, chemical drum, IBC, Pallet, road barriers, table and chairs, plasticboat, jerry can etc. Uyoung machinery is located in the kite hometown, Weifang City, in Shandong Province,China. It's only one hour away from Weifang Airport and two hours away from Qingdaoairport. . Our company focuses on the large and super large blow molding machine manufacturingand has formed a perfect team with experience designers, skilled workers, marketing expertsand trained after sale service staff. Our company provides not only quality machines, but alsoa whole service including current marketing analysis, design choosing, customer-orientedmachine revising, operation training, marketing strategy suggestion and after-sale support. We believe and promise, Choosing Uyoung, will provide you a new flying start for yourcompany and Uyoung will go along with you and help you to reach the top of your blowmolding business.

Company Introduction

Zhejiang Golden Eagle Plastic Machinery Co., Ltd. is a professional company specialized in manufacturing all types of plastic injection moulding machines, range from 80g to 30000g injection weight. And our products have high level of mechanical and electrical integration, great variety, good quality and well renow from our customers. Sales area covers European countries , Southeast Asia, the Middle East, Africa, the South America and other countries and regions. GEKW/GS series high speed & thin-wall specialized machine is be powered by high-performance servo driving system & optimized hydraulic system, it results in markedly improving injection speed and injection precision,significantly shorting the cycle time of plasticizing and improving the production efficiency . GEKW/GS is equipped with specialized injection screw of high plasticizing performance as well as injection cylinder structure of two-way piston shaft, it ensures the uniform plasticizing under high speed molding as well as the stability of injection cylinder under high speed injection.

Company Introduction

Zhoushan city Jinjiu Machinery Manufacture Co., Ltd. is located in the same island city, Zhoushan city, as the Putuo Mountain of China. The company specially produces screws and molten-rubber cylinders for homemade and imported 30-20000 gram plastic injection machines, $\phi 15$ - $\phi 300$ mm single screw extruders, $\phi 30$ - $\phi 130$ mm parallel double screw extruders and $\phi 35$ / $\phi 70$ - $\phi 92$ / $\phi 188$ tapered double screw extruders, rubber machinery, petroleum machinery, etc. Using quality steel 38CrMoAlA, all products accord with the national standards after the treatment of structural improvement, nitriding, grinding, and polishing. The company can make the screw cylinder made of GH113 Nickel-based alloy which can also be sprayed various alloys. We provide products for machine factory, universities and research institutions. Meanwhile, we provide the services of mapping, design, and maintenance, and change extruder's equipments. The company is ISO9001:2000 international quality system certification, we ensure the quality levels of products to strictly enforce the international standards. The company will provide high quality and low price products for all users with the principle of first quality and uppermost credit. Welcome to our company and welcome to contact us.
