Trade Development Bureau of Ministry of Commerce, PRC

Trade Development Bureau (TDB) was established by Ministry of Commerce of the People's Republic of China in 2003. Over the last ten years, TDB has successfully undertaken the responsibility of delivering public services to both Chinese and foreign businesses, organized activities of all kinds to help Chinese enterprises go global, and to facilitate foreign companies to develop in China.

As a key trade promotion arm under the Ministry of Commerce, TDB is actively committed to the implementation of the state's foreign trade policies, through trade promotion services such as training, business information and legal consultancy. TDB builds business exchange platforms through organizing national-level economic forums and international exhibitions, as well as business delegations to accompany the high-level visits of Chinese top leaders to foreign countries. By taking the advantage of the government's support and its network, TDB has established close cooperative relations with foreign and domestic governmental institutions, chambers of commerce and associations and industrial organizations.

CMEC International Exhibition Co., Ltd. (CMEC EXPO) derives from the exhibition office of the Ministry of the First Machine Building Industry, established in 1953. In 1978, China National Machinery & Equipment Import & Export Corporation (CMEC), the first conglomerate integrating industry with trading in China (it was renamed China Machinery Engineering Corporation in 2011), was established and the exhibition office of the Ministry was transferred to CMEC and became its exhibition office. In 1995, it was registered as CMEC International Exhibition Co., Ltd. and became a wholly owned subsidiary of CMEC, which went completely public at Hong Kong Stock Exchange in 2012, with CMEC Exhibition as part of it. CMEC Exhibition is also a member of China National Machinery Industry Corporation (Sinomach).

With its standardized management and high quality services, CMEC Exhibition has been rewarded many titles of honor for years, such as "Top 10 Partners with Reed Exhibitions ISG", "Top Ten Outbound Exhibition Companies", "Top Ten China's Exhibition Companies", "Best Exhibition Organizer of China Conference & Exhibition", "Top Ten Exhibition Agencies", "Best Outbound Exhibition Organization", "Most Influential Exhibition Company", "Top Ten China's Influential Exhibition Companies", "Most Valuable Exhibition Branding Company", "The Most Internationalized Strategic Servicing Case of No.4 CIFTIS" and so on. And it has obtained the Grade 1 Qualification Certificate of Exhibition Project and the ISO9001:2008 Quality Management System certification. Meanwhile, CMEC Exhibition is an executive member of China Chamber of International Commerce, a rotating chairmanship member of China Machinery & Automobile Exhibition Federation, a director member of the Outbound Exhibition Department of National Conference and Exhibition Working Committee, a vice chairmanship member of the Sub-chamber of Conference and Exhibition of China Chamber of International Commerce, and founder member of Union of China Convention and Exhibition Industry and China Green Convention & Exhibition Alliance.

By implementing the national strategy of "One Belt One Road Initiatives" and grasping the market and industry trends, CMEC Exhibition strives for paving the way for promoting economic and trade developments; advancing win-win cooperation and society progress. Built on machinery industries and mainly engaged in overseas expositions, it seeks diversified development. It is now engaged in the following eight major businesses: organizing groups to attend overseas expositions; organizing and undertaking expositions both at home and abroad; undertaking projects sponsored by the Ministry of Commerce or local government on different levels; exposition planning, engineering design and construction; planning and operating PR events; providing customized services for clients; planning and organizing conferences and offering related services; information consultancy and services. Every year it organizes and co-organizes over 100 expositions covering a wide range of industries—industry, hardware, printing and packaging machinery, refrigeration air-conditioners, automobile accessories, engineering machinery large-scale machinery, electric lighting, building materials and bathroom accessories, pump valves and water treatment. All these events have developed into series. According to statistics by the China Council for the Promotion of International Trade (CCPIT), the regulatory body for the exhibition industry, CMEC has been coming out on top for years in terms of exhibition scales and comprehensive strength. Over the past 60 years, CMEC EXPO has taken Chinese foreign trade companies and manufacturers to more than 300 cities in over 100 countries and regions throughout the world to attend nearly 3,000 world-famous professional expositions and comprehensive fairs.

Kanpor Electrical Machinery Co., Ltd.

KANPOR ELECTRICAL MACHINERY CO., LTD is a professional manufacturer of Diesel Generator Sets, Gasoline Generator Sets, Natural Gas Generator Sets, Bio Gas Generator Sets, Dual Fuel Generator Sets, Alternators, Motors and Water Pumps.

"Kanpor" is one of the brands of a Family Group Enterprise in Fu'an city, Fujian province, China. The plant locates in Fu'an city (Fujian province) which is known as the cradle of generators and motors in China, 1 global sales office in Fuzhou city (Fujian province), 1 showroom in Yiwu city(Zhejiang province) and 1 warehouse in Foshan city(Guangdong province).

As one of the Listed Top Ten Quality Prestige Commitment Enterprise in Fujian Province, Kanpor enforces the ISO9001 Quality Management System, carries out the strategy of creating a global famous brand, and insists on the principle of scientific innovation and development, and follows the tendency of international market to benefit the people in every corner of the world by electricity generating products.

Kanpor sincerely looks forward to set up a long term cooperation with you and gain a mutual benefit and win-win result.

NINGDE EXCEL POWERCO.,LTD

Working Environment

Not more than 1000 meters above sea level

Operate normally from -15 ℃ to 40 ℃

Beyond this temperature range, the special unit can be used;

The overloading for 1 hour by 10% can be made per 12 hours;

2.Noise Requirements

Noise is proportional to the unit output power, ranging from 65 to 118db (A);

Noise reduction measures can be developed according to different environmental requirements;

3.Safety Measures

Unit is equipped with grounding protection and emergency shutdown button;

The full automatic transfer switch cabinet can be selected according to needs;

Unit / mains switch time is not more than 20 seconds and automatic shutdown is made after operation and cooling for 0-300s from the mains restoration;

4.Performance Guarantee

Unit uses high-end brand engines and generators, with powerful performance;

Unit MTBF is not less than 1000 hours;

Optimal design and strong environmental adaptability

New Hydro Technology Inc.

In the field of energy storage, the company has integrated the industrial chain of core technologies such as energy storage batteries, BMS(battery management system) and EMS(energy scheduling system). At the user side, the company plays the role of peak regulation on the power grid side through peak cutting and valley filling, and greatly reduces the cost of electricity for the end power users through demand scheduling control. This technology has been widely used in industrial and commercial fields.

New Hydro Technology Inc. is a photovoltaic new energy service provider, the products involve the development, manufacturing, sales and service of photovoltaic energy generation, storage, use and distribution of a full range of products and systems. At present, it can provide a variety of units of full closed-loop energy storage systems, lithium battery container energy storage solutions, lithium energy storage batteries, portable lithium energy storage systems, mobile energy storage solutions, photovoltaic electrical appliances, photovoltaic lighting products, concentrating heating and other photovoltaic home appliances.

Suzhou Hongchao Automation Equipment Co., Ltd

Suzhou Hongchao Automation Equipment Co.,Ltd was founded in 2005. It's located in Suzhou city Jiangsu province, China. Our range includes vibratory bowl feeder, Inline feeder, vibratory feeder controller, base units, belt elevator feeder, reciprocating stepped feeder, flexible feeder and more. Our bowls can be made of a range of materials, including stainless steel, aluminium, nylon, with different coatings, selected to suit the application. The bowl sizes range from 140mm diameter to 1200mm diameter. Vibratory bowl feeders can be tooled for the selection of specific components to ensure the feeder is built to your requirements. Vibratory bowl feeder are made to last and move your parts to their work station smoothly and efficiently. It is the most common part feeding devices used to feed components in industrial Assembly Automation Applications.

Sumber Petroleum Cemerlang Sdn Bhd

An ISO certified company with 34 years of experiences in Lubricants Industry. Manufacture and tailor make products to customer satisfaction with flexible MOQ. Specialise in lubricants for Automotive, Industrial, Wire Rope Grease, Water Base Hydraulic Fluids, Refrigerant Compressor Fluids, Air Compressor Fluids, Food Grade with H1, Halal and Kosher Certified, ETC. Our services included R&D, products selection/recommendation, design and packaging, warehouse and logistics, Fluid Mangement.

We provide complete lubrication solutions to our customer in various industries. In some industries we also do customized product to meet customers manufacturing process or maintenance requirement
Our product range:

1. Industrial Lubricant
2. Automotive Lubricant
3. Compressor Lubricant
4. Food Grade Lubricant
5. Metal working Fluids
6. Marine Engine Lubricant

Caih Info Tech Malaysia Sdn Bhd

Shared electric bicycles are a new mode of transportation. They are parked on public roads in accordance with local regulations. Users can unlock and ride them by scanning the QR code on the bike or entering the vehicle number in an app and clicking "Start Ride". The operation process is similar to that of shared pedal bicycles. With the help of electronic fence technology, a "virtual" designated parking area is established, and the app guides users to park at predefined "designated parking spots". This service mainly aims to meet the travel needs of users for distances between 2 to 5 kilometers, covering the daily commute requirements of residents. In accordance with regulations, our company can also provide customized services such as smart helmets, Bluetooth road studs, and vehicle speed limits.
